## Chromebook Designed for Education

The eduGear® Chromebook is an affordable device that offers unparalleled performance and is specifically designed to meet the demands of a classroom environment. The device can withstand a drop of up to 50cm and is 20 percent lighter than most other Chromebook models on the market. With the latest Wi-Fi (802.11ac 2 x 2 MIMO) capabilities, two USB 2.0 ports, Bluetooth 4.0, and a MicroSD card slot, this device offers excellent connectivity and flexibility. It comes with a retractable handle and is available with 4 GB RAM.

The M4 model runs the quad-core RK3288 chip from Rockchip, a powerful chipset based on Cortex A17 architecture that runs up to 1.8 Ghz with a 600Mz Mali T760 GPU. It also has a high-performance dedicated 2D processor that supports up to 3840 x 2160 display output and boasts HDMI 2.0, allowing students to power through tasks with efficiency.
